

Did you know that...?

# Pro Collagen Face Mist Toner 100 ml

- 1** | **Naturalness index of the toner is as much as 95.3%.** The way to determine the naturalness of cosmetic products is through the method contained in the ISO 16128 standard. This standard defines the ingredients of natural origin and introduces the so-called naturalness index of the cosmetic.
- 2** | The toner has a form of **refreshing mist which works like a revitalising energy boost for your face.** It's a light and gentle care product whose task is to **hydrate, tone and refresh the skin, preparing it for further steps of the skincare routine.**
- 3** | The product **restores normal skin pH.**
- 4** | Pro Collagen Face Mist Toner combines such ingredients as: **marine collagen, gluconacton, d-panthenol, glycerin, noni and aloe plant extracts.**
- 5** | The product contains **fish collagen** which hydrates and elasticises the skin.
- 6** | The toner can be used by people with **sensitive and normal skin.**
- 7** | Pro Collagen Face Mist Toner **complements other products from Pro Collagen line.** It's an essential element of the daily skin care routine. It's a perfect complement **which helps restore skin pH after the cleansing stage and prepare it for subsequent steps of skin care.**
- 8** | Pro Collagen Face Mist Toner **is an essential element of comprehensive face skin care and the third step** following a thorough wash and cleanse. It's an excellent complement to your daily ritual which prepares the skin for subsequent steps of skin care.
- 9** | Thanks to the easy, hygienic and convenient package in the form of a convenient spray bottle, product application is easy and safe – **No Touch Formula.**
