# 12 PROOFS ABOUT SHAPE CODE® SLIM SHAKE

## HOW IS SHAPE CODE® SLIM SHAKE DIFFERENT FROM OTHER PRODUCTS AVAILABLE ON THE MARKET?

Most weight loss shakes on the market are products that are meant to replace a full meal. Thus, they have a set of ingredients with appropriately balanced nutritional values, which have a beneficial effect on the process of weight loss.

**SHAPE CODE® Slim Shake** also contains all the essential, high-quality nutrients that are an essential part of a daily diet. **What, above all, sets us apart?** It is **SLENDACOR® Weight Management Complex** – a patented formula that is a blend of plant extracts from *Moringa oleifera* leaves, *Murraya koenigii* leaves and *Curcuma longama* rhizomes that is **clinically proven to promote weight loss**.

**SHAPE CODE® Slim Shake** is the only product on the market with an ingredient that has a real impact on weight loss and weight control, and its effect has been confirmed by clinical trials\*!

\* EFFECTIVENESS PROVIDED BY CLINICAL TRIALS – in combination with a diet of 1800-2000 kcal, drinking water and moderate physical activity. After 16 weeks (112 days), the average weight loss for subjects in the clinical trial was 5.36 kg, BMI fell by an average of 2.05 and waist circumference by an average of 5.08 cm.

## WHAT ADDITIONAL SUBSTANCES SUPPORTING WEIGHT LOSS DOES SHAPE CODE® SLIM SHAKE CONTAIN?

To support you in the fight against weight loss even more effectively, we have supplemented **SHAPE CODE® Slim Shake** with additional active ingredients:

- ▶ **mangosteen fruit** (*Garcinia mangostana*) **extract** – promotes weight loss by inhibiting the formation of fat cells,
- ▶ **matcha green tea leaf powder** – supports weight management.

## DOES SHAPE CODE® SLIM SHAKE NOURISH MY BODY?

Yes, and it's all thanks to a complete set of **26 vitamins and minerals** that support your body's function.

## DOES THE QUALITY PROTEIN (RICH IN BCAA) CONTAINED IN THE SHAKE SUPPORT THE MAINTENANCE OF A FIGURE BASED ON LEAN MUSCLE MASS?

We used two complete BCAA-rich proteins: **yeast protein** and **chickpea protein** to provide your body with a complete aminogram, meaning all 8 essential amino acids that need to be supplied to your body from the outside. They support the body in maintaining a figure based on lean muscle mass.

Yeast protein is the highest quality protein that is highly digestible, providing a prolonged feeling of satiety. Additionally, it is rich in B vitamins, zinc, selenium, magnesium, chromium, and beta glucan.

## DO THE BCAA AMINO ACIDS CONTAINED IN SHAPE CODE® SLIM SHAKE PROVIDE SUPPORT FOR MUSCLES AND OR DO THEY AFFECT ENERGY AND RECOVERY OF THE BODY?

**SHAPE CODE® Slim Shake** contains high levels of **BCAA amino acids**, which are an important building block of muscles and a source of energy during training.

## DO THE FATS IN SHAPE CODE® SLIM SHAKE HAVE ANY BENEFICIAL EFFECT ON WEIGHT LOSS?

You'll find the popular sunflower oil in the ingredients of many shakes. We have chosen the beneficial **MCTs from coconut oil** for you. These are the highest quality fatty acids that promote weight loss by increasing energy expenditure (thermogenesis) and increasing the feeling of satiety. And all this to make the weight loss process even more effective!

**SHAPE CODE® Slim Shake** contains no other direct sources of fat (except for those present in small amounts in other raw materials).

# 12 PROOFS ABOUT SHAPE CODE® SLIM SHAKE

## HOW DO THE 3 TYPES OF DIETARY FIBER IN THE SHAKE CONTRIBUTE TO WEIGHT MANAGEMENT, INTESTINAL HEALTH AND DIGESTION REGULATION?

High fiber content is standard in weight loss shakes, but most manufacturers don't specify the source. For us, the type of fiber matters! In **SHAPE CODE® Slim Shake** we used as many as 3 sources of dietary fibres to take care not only of support for the slimming process, but also of your intestines and digestive tract:

▶ **pectins** – support proper intestinal peristalsis, protecting against constipation. In addition, they promote the lowering of cholesterol and glucose absorption,

▶ **inulin from chicory root** – a prebiotic which has a positive effect on intestinal microflora, stimulating the development of beneficial bacteria. Thus, it promotes bowel movements and maintains a healthy body weight

▶ **acacia fiber** – a prebiotic that promotes weight control and loss, and aids intestinal peristalsis. Over 70% of consumers felt an improvement in gut comfort after just 1 month of use\*\*.

\*\* Research on the effects of acacia fiber on intestinal function and support of proper digestion was conducted on a group of 240 people struggling with gastrointestinal problems, especially with intestinal complaints. All the participants were supplemented with acacia fiber for 60 days.

## DOES SHAPE CODE® SLIM SHAKE CONTAIN ONLY NATURAL AND ONLY VALUABLE INGREDIENTS?

94% of **SHAPE CODE® Slim Shake** ingredients are NATURAL. The shake has only been fortified with a vitamin and mineral blend; ALL OTHER ingredients are NATURAL.

**The product does not contain:** preservatives, artificial colors, artificial sweeteners, artificial flavors, artificial fillers. **SHAPE CODE® Slim Shake** is GMO-free, gluten-free, lactose-free and soy-free.

## ARE THERE ANY NATURAL SWEETENERS IN SHAPE CODE® SLIM SHAKE?

Many manufacturers use synthetic sweeteners. In **SHAPE CODE® Slim Shake** you will find the highest quality natural sweeteners: **erythritol and stevia glycosides**, which have an additional health-promoting effect.

**Erythritol** – exhibits antioxidant properties, protecting cells from free radical damage. Additionally, it reduces the formation of plaque and promotes the inhibition of harmful bacteria in the mouth.

## IS SHAPE CODE® SLIM SHAKE A ZERO GLYCAEMIC INDEX PRODUCT?

**SHAPE CODE® Slim Shake contains no added sugar**, plus, all sweeteners in the shake are natural. Products with a low glycaemic index are recommended for anyone wishing to maintain a slim figure.

## IS SHAPE CODE® SLIM SHAKE SUITABLE FOR VEGANS AND VEGETARIANS?

**SHAPE CODE® Slim Shake** is suitable for vegans and vegetarians (**no animal ingredients**); the VITAMIN D3 contained in the vitamin premix is also plant-based and is VEGAN.

## IN WHICH FLAVORS IS SHAPE CODE® SLIM SHAKE AVAILABLE?

Every day your **SHAPE CODE® Slim Shake** can taste different!

Add natural flavouring of your choice to the classic vanilla-cream smoothie just before consumption. **Mint, salted caramel, strawberry, blueberry and coffee** – what are you in the mood for today? Mix flavours and experiment!
